WORK EXPERIENCE

2019|ACT Cloud Cost Optimization Analyst | Accenture Argentina

Responsible for understanding the pricing models of our external vendors such as AWS , Microsoft and GCP, as well as for identifying opportunities that CIOs and their various support teams can use to modify their patterns settings and usage, to reduce the overall cost. I am currently using my developer experience with Python, to support the development team in projects related to automation in the cloud.

2017|2019 Client Finance Manager Analyst | Accenture Argentina

Responsible for supporting, with SAP Hana, general financial management functions, and business advisory services. I was also responsible for offering services through the termination of contracts, in compliance with the organization's regulatory principles, budget controls, forecasts, contract profit, and loss management. Advice to our client leadership teams and company directors.

2014|2015 Accounting analyst | Da Silva Esteves & Aso

Responsible for the general ledger, performing all accounting processes, overseeing the annual and interim tax calculations. I was also responsible for running payroll, and was in charge of supervising staff, and the different activities in the tax department, so that they comply with the established internal regulations.
